Language for Academic Success

Open the door to your international ambitions

Best practices for "ACADEMIC ENGLISH" & "REAL LIFE ENGLISH"

Providing quality education since 1995

La Lingua Language School was founded in December 1995 with the vision of teaching practical “real life” language as it is spoken. The founders had a dream of equipping students with the skills for true international communication.

Our reputation grew quickly through word of mouth and we came to be known as the first and best English conversation school in Sydney. In 2000 La Lingua was accredited by NEAS and registered as a provider of high quality English programs for overseas students. La Lingua continues to specialise in spoken communication, but has developed and gained recognition for many exciting new courses. We now deliver a broad range of programs, from General English to Academic English to Occupational English and Exam Preparation.

We won the Australian Ethnic Business Council Small Business award in 2002 for our contribution to Australian society, and for being a mediator between Australia and the international community. Student feedback in our regular surveys helps to make our school a living and evolving place. La Lingua Language School is “everyone's school”, created by our teachers and staff, as well as our students.

In 2022, La Lingua updated its image with a new location, new logo and branding focusing on student academic success, all with our long standing team of teaching and office staff.

We are committed to quality education. We are committed to making your learning a pleasurable and memorable experience.

English for Academic Purposes (EAP)

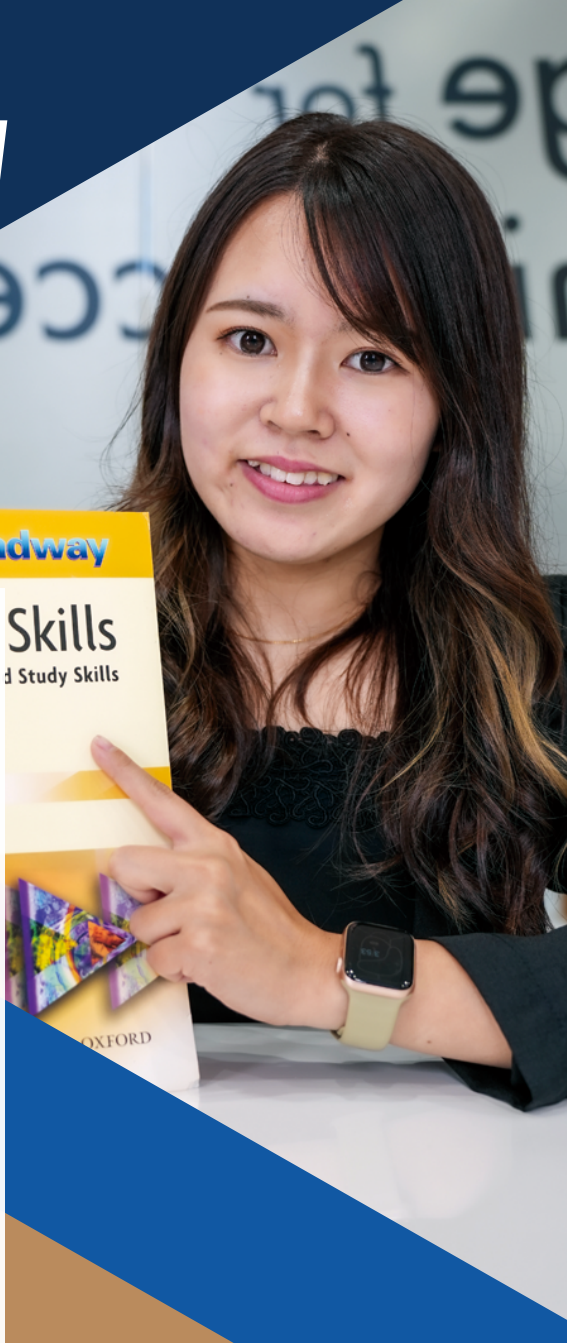

— Mone Ishii from Japan

I did the EAP course at La Lingua because I wanted to go to TAFE to study Early childhood education and care. Since La Lingua has a partnership with TAFE, I was able to enter TAFE through a pathway.

The EAP course specialises in academic English, which is very useful not only for entering college, but also after entering college. The teachers and staff are very friendly and experienced .

Studying at TAFE can be challenging, of course, but there is a lot to learn. Having a place to always come back to makes me feel safe and encourages me to always do my best.

Thank you La Lingua.

IELTS Preparation

— Paula Gonzalez from Colombia

Studying English at La Lingua has been a fantastic experience. The school has helped me to improve my confidence in speaking, listening, and writing in this sometimes challenging language for Spanish speakers.

La Lingua's teachers are well-aware of the mistakes and weaknesses that Spanish speakers often have when speaking English. They also have a wealth of knowledge on how to effectively teach and acquire knowledge. In my opinion, La Lingua, its teachers, and the entire team can be described as serious, organised, passionate about teaching, and efficient.

Thank you for everything.
